PROFESSIONAL SUMMARY

Results-driven DevOps Engineer with 5+ years of experience automating deployments, optimizing CI/CD pipelines, and managing cloud infrastructure. Strong background in AWS, Docker, Kubernetes, and Infrastructure as Code (IaC). Passionate about continuous improvement and system reliability.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, Lambda, CloudFormation), Azure, GCP

CI/CD: Jenkins, GitHub Actions, GitLab CI

IaC & Config Mgmt: Terraform, Ansible

Containers & Orchestration: Docker, Kubernetes

Monitoring: Prometheus, Grafana, ELK Stack

Scripting: Python, Bash

Version Control: Git

PROFESSIONAL EXPERIENCE

DevOps Engineer

Acme Corp - Remote

Feb 2021 - Present

- Designed and deployed automated CI/CD pipelines using GitHub Actions and Docker, reducing deployment time by 70%
- Managed AWS infrastructure with Terraform, including VPCs, EC2, and Lambda
- Built and managed Kubernetes clusters using EKS; streamlined container orchestration
- Collaborated with developers to containerize applications and ensure smooth deployments
- Integrated monitoring stack with Prometheus and Grafana for real-time alerting

Junior DevOps Engineer

TechWave Solutions - San Jose, CA

Aug 2018 - Jan 2021

- Maintained Jenkins pipelines for staging and production environments
- Assisted in migrating legacy infrastructure to AWS

- Implemented centralized logging with ELK Stack

- Automated server provisioning using Ansible and Bash scripts

EDUCATION

B.S. in Computer Science

University of California, Berkeley - 2018

CERTIFICATIONS

AWS Certified DevOps Engineer - Professional

Certified Kubernetes Administrator (CKA)
